

It is now perfectly obvious that Sinclair Broadcasting, by forcing all their stations to air a completely biased anti-Kerry pseudo-documentary just days before the election, is not serving the public interest. This is incredibly dangerous and I, for one, am appalled.

Sinclair has a license for free use of the public airways and is using this public trust in a partisan attack as a payoff to the administration from whom they are receiving favors in their pursuit of media consolidation -- from YOU, FCC. Our democracy is in jeopardy as a free and unfettered press is essential. What is quickly happening is that the media has become a propaganda tool for huge corporations to brainwash the American people.

Act NOW to prevent this usurpation of our sacred democracy. If Sinclair refuses to withdraw this attack on a free and fair election, a responsible FCC must suspend their broadcasting license. Thank you.
